SOFTWARE DEVELOPER

Tech Enthusiast with a focus on building efficient end-to-end solutions, I bring expertise in building full-stack applications, data analysis, and predictive modelling. My GitHub portfolio reflects a diverse range of projects, from AI-driven pipelines to responsive web designs. I thrive in dynamic environments where cross-functional collaboration and innovative problem-solving are key to success.

CORE SKILLS

- **Machine Learning & Deep Learning:** Regression, Classification, Clustering, CNNs, RNNs, NLP, TensorFlow, and PyTorch
- **Web Development:** ReactJS, RemixJS (React Router), TailwindCSS, Node.js, ShadCN, and Django
- **MLOps & Cloud:** MLflow, FastAPI, Docker, Jenkins, GitHub Actions, AWS, Prometheus, and Grafana
- **Programming:** Python, JavaScript/TypeScript, and SQL
- **Other Tools:** Prisma, PostgreSQL, MongoDB, SQLite, LangChain, Qdrant, Git, and Linux

WORK EXPERIENCE

Wipro (ABB) – Service Desk Analyst | Pune, India | Nov 2024 – Present

- Provide technical support to end-users, manage user accounts and system access, resolve hardware/software issues, and maintain IT systems. Ensure timely issue resolution and contribute to documentation and process improvements.

NSArrows Innovations – Data Science Intern | Pune, India | June – Sep 2024

- Built FastAPI service + NoSQL backend to extract and structure large PDF datasets.
- Developed a Python pipeline to transcribe videos → text → translated voice synthesis, improving content accessibility.
- Designed a recommendation system with semantic search using vector DBs (MongoDB/Milvus).

KEY PROJECTS

Portfolio Website (<https://fudge-fantastic.vercel.app>)

- Created a portfolio website using ReactJS, RemixJS, TailwindCSS and ShadCN.

WordSmith (<https://github.com/fudge-fantastic/WordSmith>)

- Building a blog platform with RemixJS, TailwindCSS, and Next UI, enabling users to publish their own content or generate AI-assisted blog posts. Integrates Prisma ORM for efficient database querying.

GitTalk (<https://github.com/fudge-fantastic/GitTalk>)

- Building a SaaS application that enables users to interact with their codebase (GitHub repositories) through conversational AI to identify and resolve issues.
- The platform also provides automated meeting summaries with timestamped highlights.
- Tech stack includes ReactJS, RemixJS, TailwindCSS, ShadCN, Langchain, LLama, Prisma ORM, and semantic search powered by PostgreSQL/Qdrant vector database.

Taskly

- Building a time-tracking tool to help users monitor tasks and analyse productivity. The app utilises React, RemixJS, Tailwind CSS, and ShadCN to deliver an intuitive and responsive interface.

MLOps Sandbox (https://github.com/fudge-fantastic/Kaizen_CLOSED)

- Built a machine learning pipeline using MLFlow for experiment tracking and model management.
- Created a FastAPI service for real-time predictions and containerised the app with Docker.
- Deployed to AWS and implemented CI/CD with GitHub Actions, Jenkins, and webhooks.
- Monitored system performance using Prometheus and Grafana.

QueryForge (<https://github.com/fudge-fantastic/QueryForge>)

- Built a tool that leverages LangChain, Hugging Face models, and Qdrant VectorDB to summarise websites by retrieving semantically similar content based on a given URL. Built using React, RemixJS, TailwindCSS, NextUI, Python and FastAPI.

EDUCATION

- **Post-Graduation Program in Data Science and Analytics** - Imarticus Learning (Pune) (2023 - 2024) (**TIER-2**)
- **Bachelor's in Business Administration (Computer Application)** Modern College of Commerce & Computer Studies; Savitribai Phule Pune University Affiliated. (2020 - 2023) CGPA - **8.61**
- **Senior Secondary School** - PDEA's Shri Mhalsakant Vidyalaya & Jr. College. (2018 - 2020) - **55.69%**
- **High School** - S.P.M English Medium School, Nigdi-Pune. (2007 - 2018) - **69.00%**

CERTIFICATIONS AND ACHIEVEMNETS

Udemy

- Python for Data Science and Machine Learning Bootcamp ([link](#))
- Python Data Structures and Algorithms ([link](#))
- Amazon Web Services - Solution Architect ([link](#))

Kaggle

- Beginner Machine Learning ([link](#))
- Intermediate Machine Learning ([link](#))

HackerRank

- SQL Basic ([link](#))
- SQL Intermediate ([link](#))

LANGUAGES

- English (Proficient), Hindi and Marathi (Native), German and Japanese (Novice)
